CHAPTER 56

NATUROPATHIC MEDICAL PHYSICIANS LICENSING ACT

54-5601. LEGISLATIVE PURPOSE AND INTENT. It is the intent of the Idaho legislature to regulate the practice of naturopathic medicine. Nothing in this chapter will limit the decision in State v. Smith, 81 Idaho 103, 337 P.2d 938, except to the extent that certain modalities of treatment shall require a license pursuant to this chapter. To that end it is not the intent of the legislature to regulate the practice of natural health care services as it is defined in this chapter, except as expressly provided herein.

54-5602. DEFINITIONS. As used in this chapter:

Additionally, the program shall be an institution, or part of an institution, of higher education that is either accredited or is a candidate for accreditation by a regional accrediting agency recognized by the United States department of education.

(2) "Board" means the board of naturopathic medical physicians created pursuant to section 54-5606, Idaho Code.

(5) "Natural health care services" means the broad domain of health care services, including diagnosis and treatment, where treatment or advice regarding the human body and its functions is administered by a person who:

(a) Does not use legend drugs or prescription drugs in such practice;

(c) Uses only class I or class II nonprescription, approved medical devices as defined in section 513 of the federal food, drug and cosmetic act;

(e) Does not perform surgery or minor office procedures.

(6) "Naturopathic medical physician" means a person authorized and licensed to practice naturopathic medicine under this chapter.

(7) "Naturopathic medicine" means a distinct and comprehensive system of primary health care practiced by naturopathic medical physicians. The practice of naturopathic medicine is separate and distinct from natural health care services.

(8) "Naturopathic physician" means a person licensed to provide naturopathic therapy under this chapter.

(9) "Naturopathic therapy" means the broad range of natural and holistic treatments including, but not limited to, the administration, monitoring and prescribing of natural based minerals and vitamins as approved by board rule.

54-5603. SCOPE OF PRACTICE. (1) Naturopathic medical physicians may use physical and laboratory examinations consistent with naturopathic medical education and training for diagnostic purposes. Naturopathic medical physicians may order and perform diagnostic and imaging tests consistent with naturopathic medical education and training. All diagnostic and imaging tests not consistent with naturopathic medical education and training must be referred for performance and interpretation by an appropriately licensed health care professional.
